Can't Burst These Bubbles

Multiverse bubbles can reside beside
with unseen membrane boundaries.

Now they are just theories
but could exist
in space.

They race
in time, resist
scientific queries.

Hope to settle our quandaries
our curiosity can not decide.

Limited imaginations deride
beliefs that aren't customary.

Find a questioned series.

The doubts persist;
outpace.

Embrace.

Do not desist.

Join the visionaries.

Your burst balloons can be eerie—
multiverse bubbles can reside beside.
