

Cancione

Starlight

Stars across the universe,
please stay eternally bright.
Scientists say you'll blink out
but not when I am around.

Stars across a multi-verse
might face a different fate.
They might explode more starlight
suck our stars in a black hole.

Stars, while you still exist near
you'll illuminate the dark
bring love-light to human hearts
as long as we both shall be.

Cancione:

1. Nonce lyric form.
2. Lines are seven syllables (heptasyllabic) or 11 syllables (hendecasyllabic)
3. Usually a song about love and beauty.
4. You choose stanza form and 7 or 11 syllable lines,
5. Can rhyme or not.
