Hopi Parallel Paths

Choose between the light and dark path.
Path of fear or path of love.
Love is the light path. The fear path is dark.
Dark path is broken zig-zag to nowhere.
Nowhere most people want to be.
Be on the clear, strong path of light.
Light the lives of others.
Others who also have to choose.

Hopi Signs Before Great Purification of Planet.

People will throw houses into the sky.
Sky will have paths like contrails in air
air filled with cobwebs over land.
Land will sink beneath the sea.
Sea will rise and boil from bombs that burn
burn the ground. Cold places become hot.
Hot places become cold. Trees die everywhere.
Everywhere a blue star warns people.
