### Diagonal Acrostic:

1. The message imbedded in the poem can be read diagonally.
2. You can bold the message to make it clear.
3. Like flush left acrostics they can celebrate a person, for special occasions like graduation, births, marriages, holidays and invitations.
4. They can rhyme or not. Have syllable count or not.
5. If you make a grid and write the message diagonally, you can see how many spaces you need before the letter in each line.
