If

If

I

am just
visiting
this green-blue marble
where did I come from and why leave?

If

I

am meant
to have just
one life on this earth,
it took a lot of energy

And

does
this spot
energy
go to empower
other existences as well?

Do

we
get more
than one shot
in more than one place
in one time and in one body?

It

does
not make
too much sense
to put all chances
into just one life in one soul.

We

must
have more
chances to
grow and experience
all the multi-verse offers us.

Lots

of
effort
went into
creating all that is
and what all can become of it.

Why

not
believe
in second,
multiple chances
to explore all un-imagined worlds.

Why

not
believe
energy
is perpetual,
recycles and regenerates?

So

give
this life
your best shot
but hope it's not last
in this grand universe is kind.

Cosmic Rules

Love
and
service—
cosmic rules
are universal
in an ever-changing cosmos?

Earth
rules
are hard
for one so
uncomprehending
need for power, pain and evil.

At
times
being
an Earthling
strains will and patience.
Can one act in dark, heavy world?

Think
light
when hope
flickers, gets
doused. I remember
I am a cosmic citizen.

This
too
shall pass
and one day
perhaps I will find
a place where cosmic rules are kind.

I AM

Give me a lever long enough and a place
to stand and I can move the world...Archimedes

I
am
part of
all that is.
I am. So are you,
though we might not know what it means.

I
am
part of
mystery
discovery and
many quests for understanding.

I
am
part of
multiverse
unseen dimensions
of any possibilities.

I
am
part of
energy
flow—positive or
negative—is partly my choice.

I
am
part of
creating
peace, love, joy,
new expressions to
enhance the betterment of all.

I
am
part of
connecting,
committing my best
to caring, sharing my blessings.

I
am
part of
seeing that
I manifest good,
know to make conscientious shifts.

I
am
part of
art, science,
dance, sports, learning life,
texture, color, light and darkness.

I
am
alive—
sentient,
responsible for
all I am and all I can be.

I
am
to find
meaning and
purpose, make change,
seek unity, diversity.

I
am
trying
to adapt,
to cope, think clearly
as long as my equipment holds.

I
am
linked to
witnessing
inequality
yearning for compassion, kindness.

I
am
starseed
DNA
cosmic consciousness—
an Earthling this time around—part.

Alone

They
say
we are
not alone
but some days I feel
overwhelmed by no connection.

Some
days
the sun
dims and cools
behind clouds to bring
a cold, dark heart and point of view.

Some
days
though I'm
surrounded
with caring others,
I still feel I can't contribute.

Some
days
I know
though alone
I must keep reaching
out to others who feel alone.

Some
days
quiet
times away—
I meditate for
a serene cocoon before I fly.

When
we
die do
we feel we
are alone in a
cosmos of dark and light—drifting?

If
I'm
alone
forever
with brief connections
I'll need fortitude to bear it.
