

## Fib and Trimeric Combo

James' Cell

-1-

He  
hides  
cell phone  
in his bed  
calls when its deep dark  
to illuminate the long night.

In  
our  
guest room  
cooled by fan  
he communicates  
hot topics with his fast fingers.

Lulled  
to  
sleep by  
whirring fans  
electronic buzz  
assured by sounds he's not alone.

-2-

James takes his cell phone to bed.  
hides the fact under pillows and sheets  
communicates in the silent dark  
illuminates the long night.

Hides the fact under pillows and sheets  
to muffle light and sound  
from sleep supervisors

communicates in the silent dark  
dextrously texting, but Grandpa  
can trace calls on his computer.

Illuminates the long night  
thinking he's undetected and  
connected  
feeling he's not solitary.
