

## Kyrielle Hymn

### Finding the "God Particle"

- a What gives all matter size and shape?  
b Why does matter have mass,  
a combine with gravity? Gape.  
b Scientists went to head of class  
R They think they found "God Particle"
- c Riddle Higgs boson nicknamed God.  
d Particles attract, then  
c mass bigger. Years researchers prod  
d not knowing theory when  
R they think they found "God Particle"
- e Will this help prove Big Bang theory?  
f Know the subatomic role?  
e Delivered concept for weary?  
f Theory now more than poll?  
R They think they found "God Particle"
- g "God Particle" is laymen term.  
h Higgs boson footprint found  
g and a shadow hint smash at CERN.  
h Not as certain as sound.  
R They think they found "God Particle"

### Kyrielle Hymn:

1. American invented form closer to English Hymnal Measure than with French Kyrielle. Both have refrain in common.
2. Any number of cinquains. Five-line poems.
3. Metric Count: Lines 1,3,5 iambic tetrameter. Lines 2 and 4 iambic trimeter. Or if updating to Syllable Count: 8-6-8-6-8
4. The refrain is the fifth line of each stanza.
5. Rhyme Scheme: a-b-a-b-R c-d-c-d-R etc. The R or refrain does not have to rhyme with the other end words of the stanza.
