

Quinnette

Remnants at Paisley Caves
14,000 year old artifacts in Central Oregon

-1-

- a In sagebrush desert there are raves
- a about remnants at Paisley Caves
- b from very early races.
- a People left coprolites. Test shaves
- a back to dates they lived. Research saves

- c two types of tool points. Clovis and
- c the Western Stemmed tradition. Sand
- b and ash preserved traces
- c back to the natives of this land.
- c Still so much more to understand.

-2-

- a This challenges historians
- a concept of first Americans.
- b Just how did they get here?
- a Debris left from these early clans
- a lead some to think they were Asians.

- c They look at spear points and some chips
- c from differences they get tips.
- b Not same groups would appear.
- c Trying to fill in knowledge blips
- c They're leaving some for future trips.

Quinnette:

Originated by Ethekyn Miller Hartwich

1. Ten lines. Two quintains. A decastich.
2. Metric: trochaic tetrameter except line #3 which is trochaic trimeter. Converted to Syllable counts the lines would be 8 syllables except line #3 =6.
3. Rhyme Scheme: a-a-b-a-a c-c-b-c-c
